

D322 BUILDING CODES FOR COMMERCIAL BUILDINGS

Class 8: FLAMESPREAD

(10 points)

EXERCISE 8- Wall & Ceiling Finish Selection

Name: _____

Using the assigned floor plan, the list of Interior Finish Selections provided, and the code complete the following tasks:

1. Finish Selection from List

(5 points)

For each of the five (5) rooms and areas indicated on the plan; choose (1) ceiling finish and (1) wall finish from the list provided. Indicate your selection by writing the "symbol" (ie. "C5", "W3", etc) in the boxes provided on the plan near the room name.

2. Designer's Choice

(5 points)

Select one (1) of the rooms or areas not already a part of Item #1 above, and choose (1) **ceiling** and (1) **wall finish** for that room or area. Find your own finishes, DO NOT use any of the finishes on the list provided.

NOTE: To get credit for Item #2, you must provide substantiating data (manufacturer's literature or photocopies of data printed on sample books) for each of your selections to prove to your skeptical instructor that your selections have the proper flame spread and smoke developed ratings for the locations and occupancy of the room.
