440 SENIOR STUDIO

COURSE OUTLINE & SCHEDULE: Fall 2021 (Tuesday AM 9:00am – 12:15pm)

CLASS 1: Introduction & Overview:

Sep 14 Course Overview & Synopsis.
Lecture.

Homework: Obtain CAD file from campus computer system
Market Research Study DUE class 2

CLASS 2: Programming:

Sep 21 Lecture on programming topics, issues, and methods
Desk critique and review of market research study.
Discuss in-class notebook due week 11.

DUE this week: Market Research Study

Homework: Field Research DUE class 3

CLASS 3: Design Research:

Sep 28 Review of various design research topics, including: relevant
design theories; history of design; cultural influences; and relevant
borrowing from non-design fields.

DUE this week: Field Research

Homework: Programming Phase: Adjacency matrices,
bubble and relationship diagrams,
concept/branding images, and other
planning tools DUE class 5. Begin tenant
improvement to original floorplan.

CLASS 4 Continued Development of Space Plan / “Shaping Space”:

Oct 05 Continued development is required by student. Student expected to present and discuss initial floorplan week 5 for professor and class critique.

Homework: Continued development. Student should be ready to present and discuss programming phase materials and initial Floor Plan on week 5. Rooms must be allocated and walls in place. Square footage of each room must be noted.

Prepare: Week 6: Schematic Design Presentation (11x17 format): Final Floor Plan, Initial Furniture Concept, Initial Finishes Palette, recap of Market demographics

CLASS 5: Studio Session:

Oct 12 Studio Session and individual desk critiques reviewing status of floorplan, concept/inspiration images, branding material and any other items needed for schematic design phase.

Due this week: Programming Phase: Adjacency matrices, relationship diagrams, concept/inspiration images, branding material, wayfinding concepts/solutions.

Due this week: Initial Floor Plan (for instructor review)

Homework: Schematic Design Presentation Week 6. Must be professionally organized and presented. 11 x 17 packets are required. Commence initial elevations of First Floor Shower/Locker Room.

INSTITUTE CA 92660 www.idi.edu

CLASS 6: Schematic Design Presentation:

Oct 19 Conference Room-style corporate presentation of schematic design solutions.

DUE this Week: Schematic Design Presentation (11 x 17)
Presentation time per student = TBD

Homework : Acoustical Research Solution Assignment
DUE class 8.
Initial Finish/Furniture/Fixture sample
collection DUE class 8 for desk critique.
Commence 3-D renderings.

CLASS 7: Acoustics | Specification Writing:

Oct 26 Acoustics, Sounds Masking, and acoustical needs for commercial facilities.

Specification research and preparation needed for successful
documentation of specified items.

Homework: Template for pictorial specifications DUE
class 8 for professor review.

Reminder: Prelim draft of Elevations of wet/dry areas is
due class 9 for professor review and critique.

CLASS 8: Continued development:

Nov 02 Continued development of preliminary elevations of all wet/dry
areas. Floor finish and wall finish materials and patterns should be
finalized by next week. Review and critique of initial F/F/F items.

DUE this week: Acoustical Research.
Initial Finish/Furniture/Fixture items, to be
included in pictorial Specifications, for
professor review and critique.

CLASS 9: **Continued Development:**

Nov 09

Lecture on Fire and Emergency Study. Lecture on design development packages and promotional booklet. Desk Critique.

Due this week: Prelim draft of Elevations of shower/Locker room for class critique and professor review. Print full-size hard copies. Bring in Pictorial Specifications for professor review.

Homework: Fire and Emergency Study due week 10. 3-D interior depictions due week 10 for class critique. Construction Document Sets DUE week 11.

Reminder: Pictorial Specifications DUE class 11. Reflected Ceiling Plans DUE class 11. In Class Notebook DUE class 12.

CLASS 10: **Studio Session:**

Nov 16

Desk critiques and review of 3-D interior depictions. Discuss requirements and expectations for Final Presentation.

DUE this Week: Fire and Emergency Study 3-D interior depictions due for professor review and critique.

Homework: Construction documents. Cartoon/preliminary studies (physical hardcopies) of final presentation boards due week 11 for professor review

Nov 23rd **THANKSGIVING HOLIDAY**
NO CLASS

CLASS 11:

Nov 30

Studio Session:

Studio Session and individual desk critiques.

DUE this Week: Pictorial Specifications.
Construction documents.
Cartoon/preliminary studies of final
presentation boards.

CLASS 12:

Dec 07

Final Presentations:

Final Presentations Time per student - TBD
Final digitally-produced boards & "sample tray"

DUE this Week: In-class Notebook.
Promotional Item (sales "leave behind")
11 x 17 Presentation Packets
